

# S-26® GOLD Promise Stage 4 Formula Milk Powder

S-26 GOLD PROMISE

PRODUCT

**For kids 3 years onwards**

**Supporting Brain Development<sup>^</sup> and Immunity\***

S-26® GOLD Promise Stage 4 Growing Up Milk is inspired by the latest breakthrough research on child brain development. It contains NUTRILEARN CONNECT™, a unique myelin blend of nutrients including α-lipids™, Sphingomyelin and DHA<sup>^</sup> which supports brain development.

<sup>^</sup>DHA and ARA are important building blocks for brain and eye development in infants  
\*2'-FL, Vitamin A, D and Folic Acid support your child's natural defenses.

**Our most scientifically advanced formulation, expertly designed with nutrition to help support your child's brain development, as well as immunity, digestion and growth**

**NUTRILEARN™  
CONNECT**

- Vitamin A, D and Folic Acid contribute to the normal functioning of the immune system.
- Vitamin E is an antioxidant that helps protect cells in the body.

## BRAIN DEVELOPMENT<sup>1</sup>

- DHA and ARA are important building blocks for brain and eye development in children up to 3 years of age<sup>1</sup>.
- Taurine and Choline help to support overall mental development for children up to 6 years of age.
- $\alpha$ -lipids™, a nutrient that contains Phospholipids including Sphingomyelin.
- Lutein is a carotenoid.

## GROWTH

- Nucleotides are essential to cell function and replication, which is important for growth and development, up to 6 years of age.
- Quality protein (Alpha-lactalbumin) to help in tissue building and growth.
- 2'-FL is a type of milk oligosaccharide.
- Calcium supports development of strong bones and teeth.

## DIGESTION

- Oligofructose (prebiotic), promotes the growth of good Bifidus bacteria to help maintain a healthy digestive system.

## Storage & How To Prepare

### Storage

Keep can in cool, dry place, Always replace plastic lid after use. Use within 4 weeks of opening. Avoid prolonged storage at excessive temperatures. Expiration date on bottom of can. Fill is by weight, not volume. Some settling of the powder may occur

### How To Prepare

When introducing S-26® GOLD Promise to your toddler's diet, continue with the present feeding schedule. The amount and number of S-26® GOLD Promise feed per day will be determined by the toddler's age and appetite. S-26® GOLD Promise may be fed by cup or bottle.

Follow the recommended proportions below unless your doctor suggests otherwise.

**Directions for Use:**

Prepare S-26® GOLD Promise using only the enclosed scoop.

**WARNING:** Prepare only one serving at a time. Feed immediately and follow the instructions exactly. Do not keep unfinished serving; discard the contents. Leaving the child unattended may cause choking.

**HOW TO PREPARE S-26® GOLD PROMISE® GROWING-UP MILK**

6 Scoops (36g) + 210ml = 246ml

**RECOMMENDED SERVINGS**

2 servings per day

- 1 Wash your hands and utensils before preparation.
- 2 Boil water and allow to cool.
- 3 First pour water and then add powder. Stir until powder is fully dissolved.
- 4 Dry scoop before introducing back into the can.
- 5 Close can and store it in a cool dry place before and after opening.

**Must be used within 4 weeks after opening.**
